COAL INDUSTRY AND COAL MINERS

COAL INDUSTRY AND COAL MINERS

Coal has long provided the basis for West Virginia's economic growth and the livelihood for thousands of its citizens. The many facets of the coal industry and the great importance of coal in West Virginia's economy and history have been the basis for the production of an enormous volume of literature. This section includes the major works on the history of coal mining, miners and miners' unions, strikes and labor disputes in the coal fields, and mine accidents and explosions. For more intensive guidance to literature on the coal industry, consult the bibliographies by Robert F. Munn. For information on archival and manuscript resources, see the guide by George Parkinson.

"Address of J. G. Bradley of Dundon, W. Va., President, West Virginia Coal Association, Before the West Virginia Coal Mining Institute, Huntington, W. Va., December 5, 1922."

Listing of coal companies that have issued scrip.

On cover: "1906 to 1976 - a new concept for Kanawha & New River coal fields"

West Virginia coal mine disasters.

On the West Columbia Mining and Manufacturing Company, in Mason County, 1852-1855.
